ABOUT US

At Chemelyne Specialities Pvt Ltd, we specialize in manufacturing and supplying high-performance paint driers designed to enhance drying efficiency, improve coating performance, and ensure a superior finish. With a strong commitment to innovation and consistency, we cater to the evolving needs of the coatings, inks, and FRP industries across both domestic and international markets.

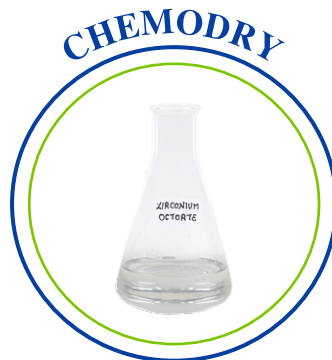

Our product range includes a wide variety of metal-based driers—such as cobalt, manganese, calcium, and zirconium—as well as combination driers and a diverse range of additives, including wetting and dispersing agents, defoamers, polysaccharide resins, and pH neutralizers. All products are formulated to deliver optimal curing, excellent gloss, and long-lasting durability, developed under strict quality control standards to meet global benchmarks.

We aim to build long-term partnerships by offering cost-effective, efficient solutions tailored to your specific requirements. At Chemelyne, we don't just manufacture driers; we create solutions.
